

# DAILY EVENING BULLETIN.

VOL. 3--NO. 156.

MAYSVILLE, KY., WEDNESDAY, MAY 28, 1884.

PRICE ONE CENT.

Analysis by Dr. A. Voelcker, F. R. S., Consulting Chemist Royal Agricultural Society, England, shows only a trace of nitrates in Blackwell's Bull Durham Tobacco. The soil of the Golden Belt of North Carolina, in which this tobacco is grown, don't supply nitrates to the leaf. That is the secret of its delicious mildness. Nothing so pure and luxurious for smoking. Don't forget the brand. None genuine without the trade-mark of the Bull. All dealers have it.

THOMAS JACKSON,  
—Dealer in—

**BUGGIES, CARRIAGES,**  
Spring Wagons and Harness.

Repository No. 18, Sutton street, Mayville Ky. Headquarters for DR. JACKSON'S time tried and reliable

**Horse Medicines.**

Third street, east of Limestone, (Powell's old stand), Mayville, Ky. Highest market prices paid for all kinds of country produce. Best of Groceries at bottom prices. Call on "Uncle Tom" whether you want anything or not. m19dly

## NEWS BY CABLEGRAPH.

**Resignation of the Swiss Minister to the United States.**

**Proposition to Suppress Mahdi-Harmony Between England and France—American Securities—Conspirators.**

LONDON, May 28.—A Berne dispatch this morning states that Col. Emilie Freisz, Swiss Minister to the United States, has resigned.

**AMERICAN SECURITIES STRONG.**

LONDON, May 28.—The market of American securities opened strong and active and at noon there was a marked improvement in the whole list, as compared with last evening's closing prices.

**OFFER TO SUPPRESS MAHDI.**

CAIRO, May 28.—The Governor of Dongola has telegraphed the Khedive offering to suppress Mahdi providing 7,000 troops be sent him at once. He says Mahdi's emissaries have not, as yet, been very successful in their endeavors to raise troops for the purpose of taking Dongola, but adds that a bad impression is prevailing on Dongola garrison by reason of not receiving reinforcements, and says he fears if help is not sent soon, the garrison may fraternize with the rebels when the latter approach Dongola.

**ALLEGED CONSPIRATORS COMMITTED.**

SLIGO, May 28.—The magisterial inquiry into the Tubbercurry conspiracy to murder concluded to-day. P. N. Fitzgerald and eleven others arrested on the charge were fully committed to await trial at the next assizes.

**PECULIAR SOCIETY.**

CAIRO, May 28.—A secret society composed of French, Irish and Arabs meets here daily.

**PUBLIC MINING.**

SHANGHAI, May 28.—The Empress has ordered its Viceroy of Yun-Nan to start public companies at Yun-Nan to mine for gold, copper and silver ore.

**INTERNATIONAL HARMONY.**

PARIS, May 28.—M. Ferry, at the council of French Ministers to-day, stated that an agreement between England and France as to the propositions to be made before the International Conference, had been consummated and that although the details had not yet been arranged, it was in the principal in perfect accord as to England's position and demands. Earl Granville consented to respect the International Canal control in Egypt during the British occupation. England, on the other hand, is to receive an indemnity and be recompensed for the occupation.

**POLITICAL BIAS**

**Seems to Have Effected the Prosecution of the Star Routes.**

WASHINGTON, May 28.—Mr. Ker continued his testimony this morning before the Springer Committee. He said that the Mitchell Grand Jury in the Star Route cases kept no records and that at the conference between himself and Bliss, Merrick said Kellogg should be indicted, but Bliss contended he should not; that the Attorney General insisted that Kellogg should be indicted if guilty; Ker said that Merrick held that Kellogg should be indicted but not prosecuted, as conviction would break the Republican majority in the Senate. Members of the committee, thinking it strange that Merrick should be interested in a Republican majority in the Senate, questioned him on the subject, asking if he did not mean to say that Bliss objected to the prosecution of Kellogg? The witness reiterated the statement, however, to the effect that Merrick made the remark about the breaking of the Republican majority.

**Catholics Opposed to Free Masonry.**

MONTREAL, May 28.—The Ultramontane French press here having denounced Catholics in this province for being connected with Free Mason lodges, and the Journal in Rome following suit, Bishop France issued a mandament on the subject which was read in all the churches last Sunday. The Bishop alleges that the number of Catholics in his diocese said to be in connection with the secret societies is exaggerated, but calls on all to separate themselves from such alliances in compliance with the Pope's late pastoral.

**After the Mongolians.**

MONTREAL, May 28.—Antagonism between the Chinese laundrymen and the populace is becoming strained. A row occurred to-day between Mongolians and French Canadians which took a large posse of police to quell. Oliver Bowen was dangerously, if not fatally, stabbed in two places by Hong Lee, who was arrested with two of his countrymen after a desperate resistance. The Chinese were armed with knives. The French have been the aggressors.

**A Tennessee Tragedy.**

NASHVILLE, Tenn., May 28.—A Columbia special says that Hardie Harrison and wife, an aged couple living nine miles east of there were brutally assaulted by Walter Daniels, a nephew, last evening; object being robbery. Mrs. Harrison died this morning, and her husband is not expected to live. Daniels escaped, but if caught will probably be mobbed. Great excitement prevails.

**Importing Cheap Labor.**

MALVERN, Iowa, May 28.—The trains from the east on the Burlington & Quincy Road yesterday brought forty Italian laborers to work in the Junco coal mines at Hastings. The men already employed, who number nearly 300, are indignant, refuse to let them go to work and threaten destruction to their shanties unless they leave at once. The difference in the wages causes the trouble.

**A Distinction With a Difference.**

WASHINGTON, May 28.—The excess of the value of merchandise imported into the United States over merchandise exported from the United States during April, 1884, was \$4,368,908 against an excess of exports over imports in April, 1883, amounting to

## THE MYSTERY CLEARED UP.

**The Identity of Arabella Hazard Established Beyond a Doubt.**

NEW YORK, May 28.—There is no longer any doubt that the body found on Saturday floating in the Hudson, near Hastings Pier, is that of Miss Arabella Hazard, who disappeared on May 16 from Cincinnati. A more careful examination of her clothing was made by Coroner Mitchell to-day. The gold ring found on the third finger was taken to a jeweler. The initials were indistinct, but under a microscope appeared to be "A. H." During the afternoon the following was received from Arabella Hazard's uncle:

CINCINNATI, May 28, 1884.

Telegraph height and state whether clothing answers following description: Black stockings suspended from waist, skirts suspended from shoulders, no corsets, ring broken, moles on her face. Signed,

JOHN H. MIXER.

The clothing corresponded exactly. Her height was five feet and one-half inch, Arabella Hazard's height. When taken out of the water her soaked clothing gave the impression that she weighed at least 125 pounds, but it is possible she may have weighed only 95 pounds. The eyes were found to be bluish gray. She answered the description of Miss Hazard completely and Mr. Baker so telegraphed to Cincinnati.

Twenty years ago, near Dobb's ferry, Mrs. Archer kept a summer boarding house. Among her boarders were a Mr. and Mrs. Vesie and a niece. Old residents remember that she was called Arabella Hazard. Vesie died and Mrs. Vesie took her niece West. Mr. McNery, who boarded in the house with Mrs. Vesie, told this story at the undertakers this afternoon. While Mr. McNery was still speaking this dispatch was received:

CINCINNATI, May 28.—Mr. Vesie, cousin of Miss Hazard, is on his way to identify the body.

Miss Hazard was 33 years old and religious. No one has been found who saw her in the neighborhood of Hastings. It is thought that the young lady wandered towards her former home while insane, but whether her drowning was accidental or suicidal is a matter of conjecture.

**GETTING AT THE FACTS.**

**Resurrecting Some Correspondence Touching Upon Government Contracts.**

NEW YORK, May 28.—In one of Mr. Fish's letters to General Grant he speaks of their mutual relations to the firm and the necessity for having its credit high. He says:

"These notes, as I understand it, are given for another purpose than to raise money for the payment of grain, etc., purchased to fill the Government contracts."

In General Grant's reply is the following: "Your understanding in regard to our liabilities are the same as mine. If you desire it I am entirely willing that the advertisement be changed to express this." In another letter which his counsel claim to be disconnected with the preceding correspondence, General Grant says: "In relation to the matter of discounts, I would say I think the investments are safe and am willing that Ward should derive what profit for the firm the use of my name and influence may bring."

**Assaulted With Bulldog and Pitchfork.**

GEORGETOWN, Del., May 28.—Wm. H. Donovan and James Warren, farmers, who live near here, are brothers-in-law, and their wives inherited a tract of land jointly. A quarrel arose over the division of the land, and they have been in litigation ever since. On Sunday Warren went over to the land allotted to his wife. Donovan ordered him off and attacked Warren with a pitchfork and at the same time set a fire to a building on him. The dog bit the back of Warren's legs and body and his face is marked with the sharp prongs of the pitchfork. He is in a critical condition.

**Decidedly Gloomy Outlook.**

SHREVEPORT, La., May 28.—The Red River has declined two inches the last twenty-four hours, but a general rise is reported below Fulton, Ark. The steamer Yazoo Valley arrived from New Orleans yesterday, bringing passengers and stock from the plantations below, driven out by the high water. The officers and passengers report that great distress is prevailing, the whole country being under water and the river still rising. One gentleman who is well posted remarked: "The situation below is much worse than it has been for many years and the future looks terribly gloomy. The chances of replanting are in no wise flattering."

**Perils of the Ice Fields.**

MONTREAL, May 28.—Captain McCorg, of the steamship Benona, arrived yesterday after a voyage of seventeen days from Pictou, Nova Scotia, and reports the sinking of the steamer Turanball and a Norwegian bark by the ice in the Northumberland Straits on the 11th inst. The crews of both vessels escaped, and their boats were landed after great hardship and privations through the ice. Benona had a most perilous voyage from the fields of floating ice. He was obliged to anchor for over six days.

**The Fatal Flash.**

MILFORD, O., May 28.—During the heavy thunder storm this morning, lightning struck Charles Gatch, a prominent citizen of this place, instantly killing him and three horses, which he was driving at the time.

The flash was followed by a peal of thunder that shook the entire town. Mr. Gatch has lived here all his life, and he has a great number of relatives dwelling in the immediate vicinity.

**A Shut-Up and a Run.**

LITTLE ROCK, Ark., May 28.—A Hot Springs special says the Hot Springs National Bank has closed its doors, owing to a run on the bank, caused by the reported absence of President Andrew Bruon. Liabilities, \$40,000.

A run has commenced on the Arkansas National Bank, Hot Springs, which is said to be in good condition. Great excitement at Hot Springs.

## NOT DEAD BUT ABSENT

**Is Hinckley, and the Strange Woman Was His Wife.**

"When the Guilty Wall Street Gamblers got Done Talking, Father Will Fire a Broadside"—  
Fred. Grant.

NEW YORK, May 28.—No statement has been made by the examiner of the West Side Bank. To-night the building was dimly lighted and policemen were guarding the doors. At Hinckley's residence there were no signs of life. Repeated ringing of the bell failed to get any response.

Nothing was seen of Mrs. Hinckley and it is thought she is the woman who made inquiries after the defaulter at the Delavan House.

A dispatch from Albany says the body found in the river proves not to have been that of the missing financier.

Cashier Duellier, of the West Side Bank has told a reporter that the bank will resume in a few days.

**BROADSIDE COMING.**

NEW YORK, May 28.—Col. Fred. Grant to-day was asked:

"Is it true that General Grant was interested in War's government contracts, and drew a colossal income from profits thus obtained?"

"No sir; father assures me that he was never so interested."

"Why is it that the General seems so unwilling to make a statement as to his side of the case?"

"Simply because he is not anxious to rush into print before he knows where he stands. When Ward and Fish and the rest have tired themselves with making affidavits and statements for the papers, then possibly father may be induced to fire a broadside. I am confident that the public believe generally that father is innocent of all wrong in this matter."

A messenger filed General Grant's schedule wherein it appears that young Grant invested \$500,000 at different times in the firm of Grant & Ward, and his profits were \$2,000,000. This amount of \$2,000,000 is due Grant from the firm, and he is indebted to the firm in the same amount, so that he is penniless.

**A YOUTHFUL BANDIT**

**Who, in Dime Novel Style, Cleaned Out the Whole Family.**

NEW YORK, May 28.—William Eppel, fifteen years old, of No. 97 East Fourth street, on Saturday night found fault with his mother because the supper did not suit him, and then attempted to stab her with a bowie knife. Then when his sister scolded him he pulled out a revolver, and when his father went out in search of an officer he followed him, collected a band of youths and stoned his parent. Yesterday the lad was a prisoner at Essex Market. "The Murdered Ranger; or, the Blood-stained Boy of the Prairies" is a bully story, Judge, did you ever read it?" said the lad. "Then there's 'Dick Turpin Outdone; or, the Story of the Bandit Boys,' 'The Robbers of the Cave; or, the Boy Avenger,' 'Perils of the Plains; or, the Youthful Stage Coach Robbers and Murderers,' and lots of other good stories."

"The boy has about five hundred dime novels at home," growled the father.

The lad was held.

**Dakota Political Wrangles.**

YANKTON, D. T., May 28.—Governor Ordway and his friends do not intend to allow United States Attorney Hugh J. Campbell to have everything his own way in his political fight against Governor Ordway. Attorney General Hughes has filed charges against Campbell for official misconduct in connection with the indictment against the Governor and other matters. Hon. Alexander Bottler, of West Virginia, has been sent to Dakota to investigate the matter, and he is now here. It looks as though either Ordway or Campbell must retire from official life in Dakota. As Ordway's four years were up four days ago, the latter's enemies are wondering why the President does not appoint a successor. The fact that Territorial officials do not retire until their successors are appointed and qualified is not pleasing them. When questioned about the matter, Governor Ordway's friends say that Campbell's indictment will not facilitate Ordway's retirement. Clearly Dakota's political storm is not yet over Governor Ordway has been spending part of the week here, attending to official matters and preparing for his trial, which has been set for June 13 or 14.

**Why It Failed.**

PITTSBURG, Pa., May 28.—The Directors of the defunct Penn Bank this morning took possession of the individual book accounts of the concern, and up to 1 o'clock had struck some developments which promise to show why the collapse came so suddenly.

There is among the accounts one of the firm of D. Wilson & Co., which shows overchecking of the extent of \$240,000. No such firm is known in this city, and it is supposed to represent the account of a number of persons operating on the wrong side of the oil market, and who have been allowed to drain to the extent named.

The Director, who furnished this information, states further, that the account of a prominent oil dealer was overdrawn \$97,000. These two accounts represent overdrafts of \$337,000.

**BINGHAMPTON, N. Y., May 28.—A fire in the saw mill of Addison Lyon in this city in the locality known as milltown caused the burning of Luke Doolittle's grist mill, loss \$30,000; Lyon's mill and stock, loss \$20,000; the cigar box factory of C. B. Woodruff, loss \$12,000; the Kelly chair factory and C. H. Lacy's bee hive factory. The total loss is \$70,000.**

**New York Second National All Right.**

WASHINGTON, May 28.—The Comptroller of the Currency says the examiner at New York reports the Second National Bank solvent, the defalcation having been made good.

## HE SHIPPED AS FREIGHT.

**But if the Lord Spares Him, He'll Never Do It Again.**

TOPEKA, Kas., May 28.—Horace H. Bail, of Chicago, not having sufficient money to buy a ticket, conceived the scheme of being sent as express matter to Manhattan, Kas., and was successful. He contrived a box so that he could set in it and could, if necessary, open it and release himself. He got into his box and was placed on board the cars. He left Chicago last Thursday and arrived in Manhattan shortly after midnight on Saturday morning, and was dumped out on the platform with other freight. His expectation was that he could escape in the darkness, but the box was set down bottom side up with the lid against the platform and his scheme was frustrated. When he was rolled into the express office at the depot a still worse misfortune attended him, for the box was so placed that he stood on his head. The clerk then began checking up, using the box for a table. Bail stood it as long as he could and then made his presence known, greatly frightening the agent who was going to shoot into the box. At length, however, they released him. He paid the express charges, \$9.25. A ticket would have cost \$17.50.

**CONGRESSIONAL SUMMARY.**

WASHINGTON, D. C., May 28.—In the House Mr. Ellis called up the joint resolution appropriating an additional \$100,000 for the relief of the sufferers by the Mississippi floods. He appealed to the humanity of members to pass the bill. On a vote it was passed by 130 to 70.

Consideration of the Wallace-McKinley contest was resumed, Mr. Taylor (O.) continuing his remarks which were interrupted by the adjournment yesterday.

**SENATE.**

Don Cameron was in his seat this morning for the first time this session.

Mr. Slater reported favorably, with amendments from the committee, the Public Lands Bill forfeiting unearned lands granted to the Northern Pacific Railroad.

Mr. Sherman reported favorably a bill regulating the payment of bills of exchange drawn in foreign countries on persons, firms, companies or corporations in the United States, where amounts to be paid are named in foreign coin.

**Train Ditched—Washout.**

EL PASO, May 28.—The Mexican Central express was several hours late yesterday, caused by a wreck below Hermosillo. Unknown parties removed two fish-plates from the rails. The engine passed over, but the express and third-class cars were derailed, seriously injuring the express messenger. No one has been arrested. It is thought these accidents will continue until the company employs only Mexican hands on all the trains.

There is a serious washout at the railway bridge over the Rio Grande. The river is the highest for years and is still rising. There have been no trains for two days, east or west.

**Left Him Some Pocket Change.**

NEW YORK, May 28.—In Wall street to-day the feature of interest was the report of the transfer by W. H. Vanderbilt to his son of \$5,000,000 of Government bonds, the inference being that they were to be used during the financier's absence in Europe to sustain his stocks. A reporter called upon Mr. Chauncey W. Depeew for an explanation. He answered with a smile: "The meaning of it is this: Mr. Vanderbilt has a vast business to be looked after, and while he is in Europe somebody has to attend to it. The transfer of the money was made in case of need."

**Boy Kidnapped.**

MILWAUKEE, Wis., May 28.—Yesterday a well dressed man stepped up to a group of boys playing at the foot of Washington avenue and began to converse with one of them, a three year old son of George Perry. A few minutes later he lifted him up in his arms and walked away. No trace of him has been found so far, although the detectives are hard at work. The mother is almost distracted with grief.

**New National Banks.**

WASHINGTON, May 28.—The following National banks were authorized to-day to commence business:

The People's National Bank, of Newark, Ohio. Capital, \$150,000.

The First National Bank of What Cheer, Iowa. Capital \$50,000.

The Metropolitan National Bank of Leavenworth, Kansas. Capital \$100,000.

**To Extend the Term of the Presidency.**

WASHINGTON, May 28.—The bill reported from the Judiciary Committee by Senator Ingalls to-day, proposes to extend the term of President and Vice-President to six years after three-fourths of the State Legislatures shall ratify an amendment to the Constitution to that effect.

**Steamer Glassalt Afloat.**

WASHINGTON, May 28.—The Signal Corps station at Hatteras, N. C., reports the steamer Glassalt, before reported ashore on the 25th, was floated last night at 8 o'clock by the Baker Salvage Company and left at once for Philadelphia. Her cargo of fruit was in fair condition.

**The Guard at Eno's House.**

NEW YORK, May 28.—The residence of Eno is still watched, and the servants admit nobody. Detectives said to-day there is nothing new in the situation. They think Eno is still in the house, and don't think he would go out the back way. "He is not that kind of a man."

**A Lack of Information.**

NEW YORK, May 28.—The President of the West Side Bank said this morning that nothing had been heard of Hinckley, the defaulting teller. He could not tell when the bank examiner would have his statement ready.

**Fire.**

TROY, N. Y., May 28.—Fire was discovered in the mounting section of Phillips' stove works at 2 o'clock this morning. The damage to the building will not exceed \$2,000.
